RE. Refreshes the parts other subjects don't reach

This new religious education initiative from Tring School Campus will offer a range of opportunities for debate, discussion and learning on many aspects of this most important subject. Understanding the impact of religion on human beings helps us understand the 'why' about so many puzzling issues. Do join us for the launch event and look out for the many interactive opportunities which are scheduled for 2008 and 2009.
