A new training resource to support children with additional 'medical' and care needs in Hertfordshire

Are you the parent or carer of a child who has additional medical needs?
Would your child like to have the opportunity to access a play-scheme, an extended school, a leisure facility, a nursery or a respite care setting?
Does your child need assistance with transport or with a 'specialist' care procedure or simply somebody around who knows how to deal with a medical emergency should it arise?

The Hertfordshire Primary Care Trusts and Children School and Families (Hertfordshire) have joined forces to provide a major new training resource to support children with additional medical needs to enjoy life and achieve their full potential
If you would like to speak to somebody about your child's needs, then please contact:
Mark Whiting, Consultant Nurse for Children with Complex Health Needs: on 01923470662 or email mark.whiting@herts-pcts.nhs.uk
