What are Extended Schools?

All local schools are members of a Consortium of Extended Schools - this is a partnership of schools, working together to increase the activities and services they are offering. All the activities run are based on the needs of parents/carers, children and young people. You can access **any** of the services offered.

How can Extended Schools help my family?

Your Extended Schools Coordinator can give you details of all the local childcare places, holiday playschemes, afterschool clubs, family learning, adult learning, support for parents and access to other services.

Don't hesitate to contact us as we are always happy to hear from you and your family. Your views are important to us and help to shape what we offer for you and your family.

Your coordinator can also give you information on **Extended Opportunities funding**. This funding has been made available by the government to give more children access to extra curricular and holiday activities. If you'd like to discuss whether or not you meet the eligibility criteria for this funding, please contact your Extended Schools Coordinator.
