

A new training
resource to support
children with
additional 'medical'
and care needs in
Hertfordshire

Are you or your staff providing care for a child with additional medical needs?

Do you work in a play-scheme or a school, a nursery or a respite care setting?

Are you a foster carer or a child minder or a shared carer?

Do you employ learning support assistants, transport/escort staff or carers?

The Hertfordshire Primary Care Trusts and Children School and Families (Hertfordshire) have joined forces to provide a major new training resource to support children with additional medical needs to enjoy life and achieve their full potential

If you or your staff need training then contact:

Mark Whiting, Consultant Nurse for Children with Complex Health Needs: on 01923470662 or email mark.whiting@herts-pcts.nhs.uk
